## **DETAILED ACTION**

### ***Election/Restrictions***

1. The restriction requirement of December 4, 2007 is hereby withdrawn.

### ***Specification***

2. The abstract of the disclosure is objected to because it is not shown on a separate sheet of paper, currently the abstract is submitted as the front page of the P371 application. Correction is required. See MPEP § 608.01(b).

### ***Claim Rejections - 35 USC § 102***

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

The changes made to 35 U.S.C. 102(e) by the American Inventors Protection Act of 1999 (AIPA) and the Intellectual Property and High Technology Technical Amendments Act of 2002 do not apply when the reference is a U.S. patent resulting directly or indirectly from an international application filed before November 29, 2000. Therefore, the prior art date of the reference is determined under 35 U.S.C. 102(e) prior to the amendment by the AIPA (pre-AIPA 35 U.S.C. 102(e)).

Art Unit: 3651

4. Claims 1-8 and 14-18 are rejected under 35 U.S.C. 102(e) as being anticipated by Hu et al. USP 6,623,860.

See the attached marked up drawing sheet 1 of 8 of Hu et al. depicting the claimed features.

RE the sequence of steps as outlined in claims 2 and 3, Hu et al. is capable of performing these operations, although not specifically stated. The structure and control elements are present to perform these operations if programmed properly. See figures 2-7 showing different layouts such as bifurcated sections.

#### *Allowable Subject Matter*

5. Method claims 10-12 are allowed.

#### *Response to Arguments*

6. Applicant's arguments (filed 3/27/2007) with respect to the claims have been considered but are moot in view of the new ground(s) of rejection.

#### *Conclusion*

7. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO

Art Unit: 3651

MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.

8. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
